

2ND ANNUAL CAL STRUBLE MEMORIAL GOLF TOURNAMENT

Cal Struble

Through his gentle spirit and brave heart, Cal was an inspiration to those living with HD and their families. Cal died from HD November 21, 2016, at the age of 59. During his 12 years with HD, Cal never gave up or gave in to HD. His two goals in life were to glorify God and raise money to find a cure for HD.

Every dollar raised is presented to HDSA to fund HD research and provide support to families.

YOUR GENEROSITY BRINGS US ONE STEP CLOSER TO FINDING TREATMENT AND A CURE FOR THE NEXT GENERATION!

Hosted by Northwest Missouri HD Support Group

Our purpose is to provide a safe gathering place to share information and support each person and family with Huntington's Disease. We seek to raise public awareness of HD, to raise money to find a cure or treatment for HD, and to provide support along the journey.

Huntington's Disease Society of America

About HDSA

The Huntington's Disease Society of America is the premier nonprofit organization dedicated to improving the lives of everyone affected by Huntington's Disease (HD). From community services and education to advocacy and research, HDSA is the world's leader in providing help for today and hope for tomorrow for people with HD and their families.

What is Huntington's Disease?

Huntington's Disease is a fatal genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities during their prime working years and has no cure. HD is known as the quintessential family disease because every child of a parent with HD has a 50/50 chance of carrying the faulty gene. Today, there are 30,000 symptomatic Americans and more than 200,000 at-risk of inheriting the disease. Many describe the symptoms of HD as having ALS, Parkinson's and Alzheimer's – simultaneously.

HDSA History

HDSA was founded in 1968 by Marjorie Guthrie, the wife of legendary folk singer Woody Guthrie. Woody died from HD complications in 1967 when he was only 55 years old. But the Guthrie family legacy lives on at HDSA to this day.

Centers of Excellence

The HDSA Centers of Excellence provide an elite multidisciplinary approach to HD care and research. HDSA currently has 41 Centers of Excellence across the United States. These centers provide patients with expert neurologists, psychiatrists, therapists, counselors, and professionals who work collaboratively to help families plan the best HD care program throughout the course of the disease.
